

Skill Sheet 8-I-4

Objective 13: Demonstrate the blanket drag. (*NFPA® 1001, 5.3.9*)

Student Name: _____ **Date:** _____

Directions

For this skills evaluation checklist, students will demonstrate the blanket drag. The blanket drag is useful when a single firefighter is faced with moving a heavy victim. Rather than lifting the victim, the victim can be dragged on a blanket, rug, sheet, or similar object.

Equipment & Materials

- Full protective clothing with SCBA
- Blanket, rug, or sheet

Criteria & Evaluation Comments

Criteria (determined by the AHJ)

After the candidate has completed the skill sheet, write comments below.

Skills Evaluation Checklist

Objective 13: Demonstrate the blanket drag.

Task Steps		Yes	No
1.	Spread a blanket next to the victim, making sure that it extends above the victim's head.		
2.	Kneel on both knees at the victim's side opposite the blanket.		
3.	Extend the victim's nearside arm above his or her head.		
4.	Roll victim against your knees.		
5.	Pull the blanket against the victim, gathering it slightly against the victim's back.		
6.	Roll victim gently onto the blanket.		
7.	Straighten the blanket on both sides.		
8.	Wrap the blanket around the victim.		
9.	Tuck the lower ends around the victim's feet if enough blanket is available.		
10.	Pull the end of the blanket at the victim's head.		
11.	Drag the victim to safety.
